**Distinguished Ms. Joy Grant**  
**Governor of the Central Bank of Belize**

This is your humble servant, Giovanni Caporaso Gottlieb, practicing attorney in Panama, with 30 years of experience in offshore banking; I'm writing to you on behalf of a large number of Choice Bank account holders, to tell you, with all due respect, that your June 29, 2018 communication on YouTube is offensive and ridiculous.

You and the Central Bank of Belize DID NOTHING during the six (6) months of the Choice Bank's crisis, due to external factors which the new International MasterCard regulations.

On several occasions, I, on behalf of my clients, and many other account holders have written to the Central Bank to request, following the mandates of the law of Belize, its intervention for safeguarding our interests.

You and the Central Bank DIDN'T EVEN DEIGN TO ANSWER, nor have you acted according to what has been established by the law of Belize.

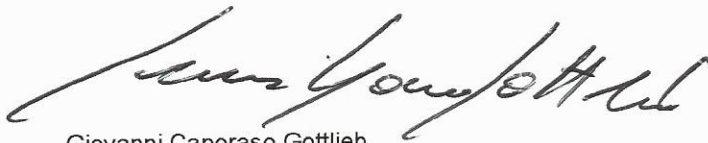

Now, you are continuing in your lack of respect, don't deny it, by naming a Liquidator two days after Choice Bank told us that it was ready to approve withdrawals from our accounts. You and the Liquidator, a week later, haven't issued an announcement specifying how the account holders are to recuperate their money.

If you and the Central Bank have thought of spending our money by setting a bureaucratic machine in motion, with inexperienced employees who earn large

salaries with our money, know, Ms. Governor Joy Grant, that WE AREN'T GOING TO ALLOW IT!

If you haven't presented us with a detailed plan by next Monday, we will refer to all of the international authorities so that they will suspend and put Belize's banking system under investigation,

Sincerely, your humble servant,
